# Greenlight

Crowdfounding App

WDI Second Project
by
Gabriele Iacopetti

Resources and inspirations

- Searched for website with similar subject
- Looked at their layouts to try to recreate something similar
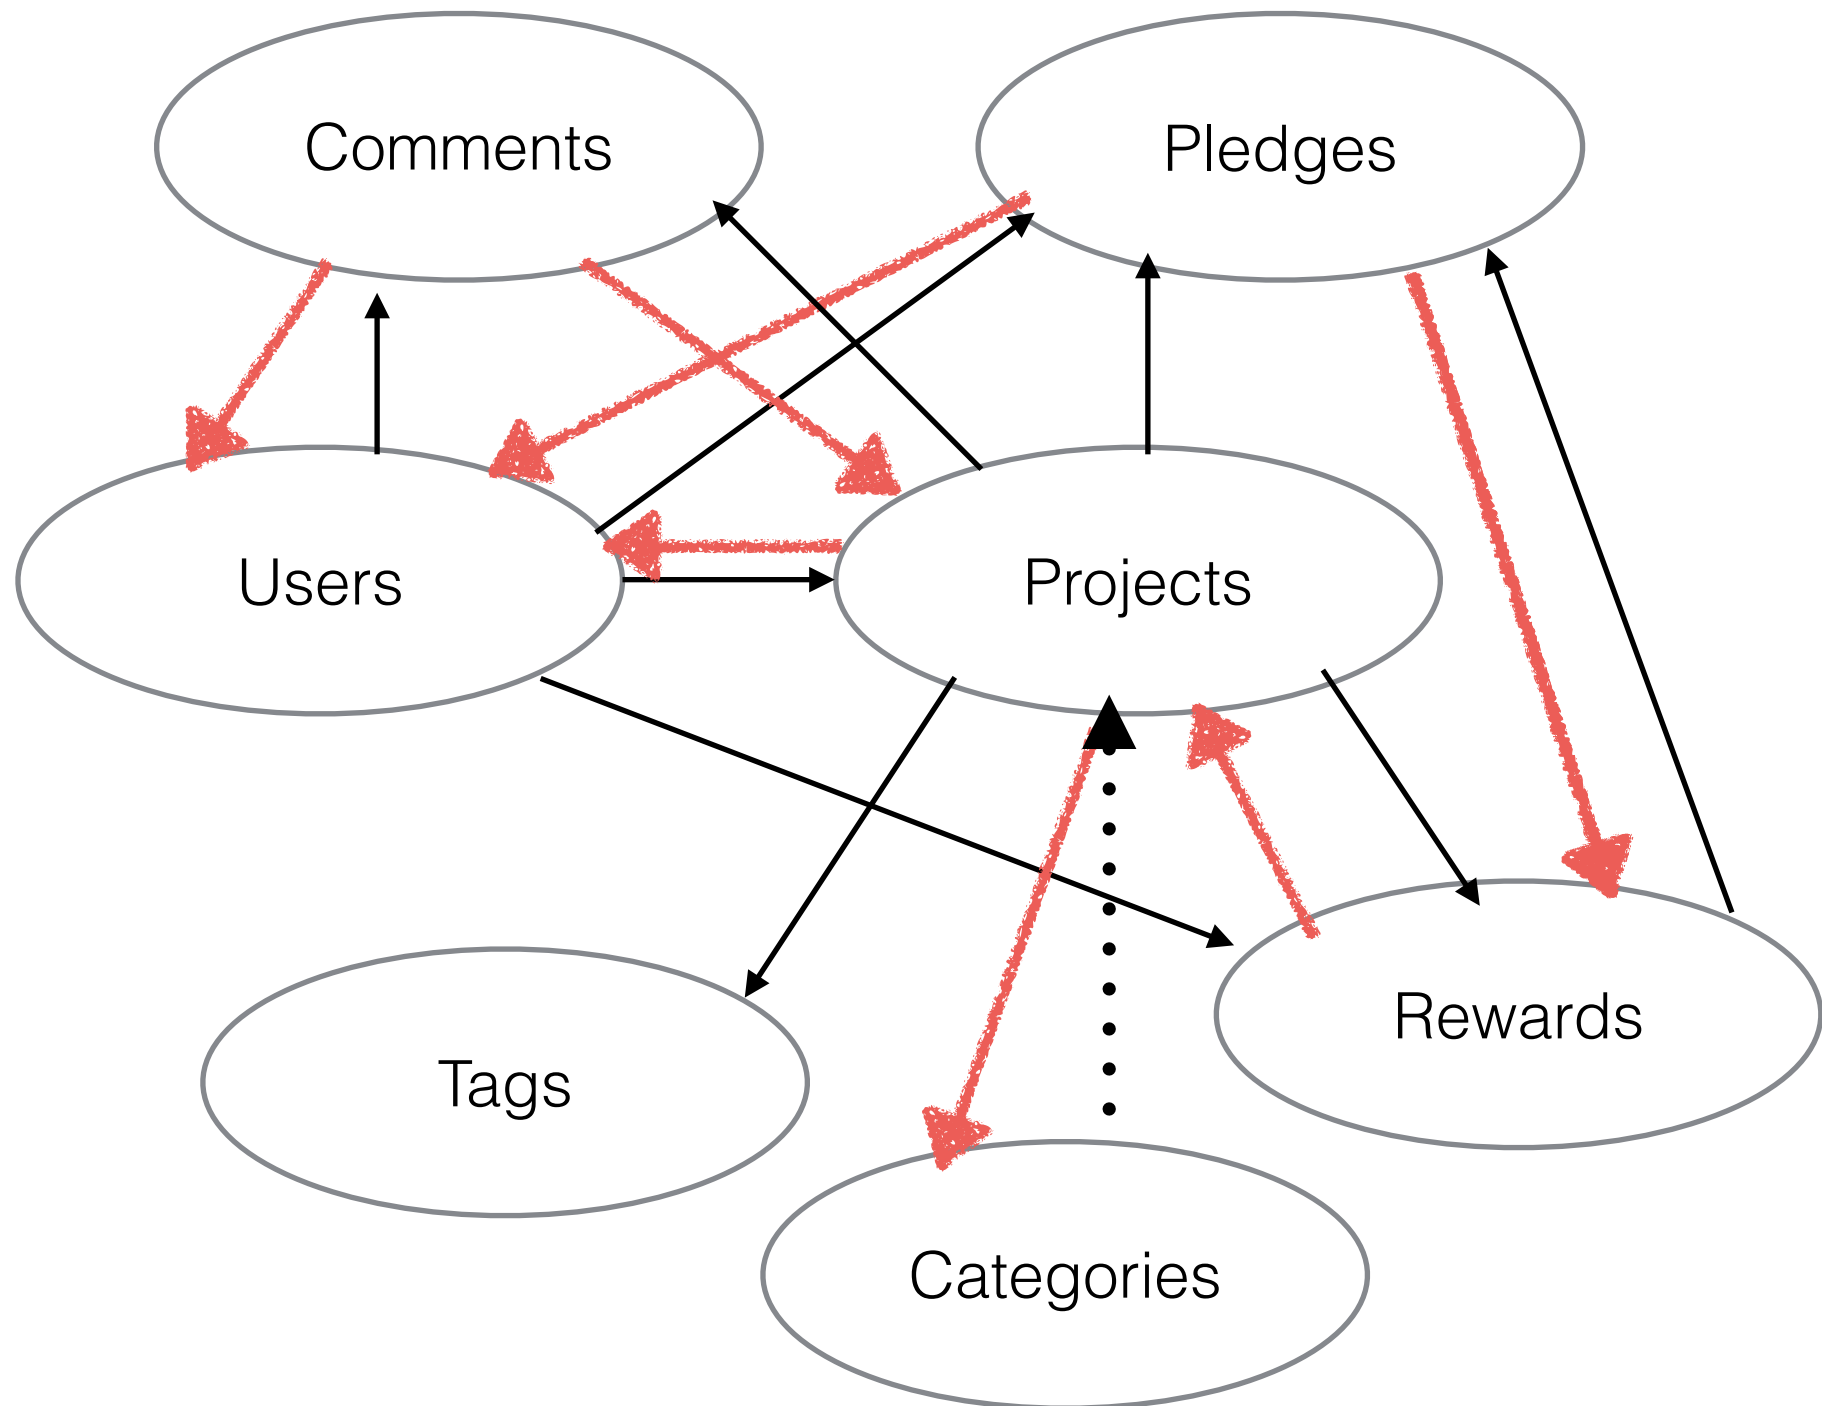

Creating the Mockup

- Based on the layouts of famous websites i have created the mockups

Models

Challenges

- Most of the problems were due to Gems implementation.

- Creating a Comment model from scratch without using acts as commentable

- Remember to put the right strong params in the controllers.

- The terrible orbit-slider

What i learned

- How to create models with many relationships
- How to implement gems(the good ones)
- Google is your best friend
- Use foundation css framework and practice scss
- I will never use orbit slider again
